- **Redding leads the way!** Redding will have the first of this type of all-electric, docked bikeshare system between San Francisco and Portland
- **A docked bikeshare system** that provides a designated space to park bikes securely.
- **All electric pedal-assist bike fleet.** Redding is one of a smaller set of cities that will have an all-electric, pedal- assist bike fleet.
- **Redding joins over 50 cities in the US with BCycle bikeshare**, including Santa Barbara, Houston, and Philadelphia.
- **BCycle is the Best-In-Class bicycle sharing company**, a part of Trek Bicycles, headquartered in Wisconsin.

POWER UP OR DOWN

Electrify your ride with optional pedal assist that amplifies your effort.

Pedal assist can be turned on and off any time.

SECURE PHONE HOLDER

Allows riders to view directions to their destinations

ADJUSTABLE SADDLE HEIGHT

Upright riding for riders of all sizes

BOSCH-POWERED

Equipped with best-in-class Bosch drive unit and in-field swappable battery.

Benefits Of Bikeshare

Bikeshare is a healthy and sustainable form of public transportation in which bicycles are available for shared use by individuals on a short-term basis. These shared bikes allow people to get around town at a low-cost without the need for a car.

01. Better Health

An e-bike offers a less strenuous ride than a traditional bike while still providing the benefits of physical activity.

02. Fast & Easy Commute

The hills and headwinds of Redding are no problem while on an e-bike. You can get across town faster and have fun while doing it.

03. Saves Money

Riding an e-bike is less expensive than driving; no gas required and the Shasta Bike Depot takes care of the maintenance for you.

04. Sweat Free Ride

Even in the Redding heat, you can look neat, clean, and professional when you arrive by e-bike.
